Kick-off Meeting

The SafeNav Project was launched on 1st September 2022. The 3-Day meeting was hosted in Limassol, Cyprus by the Project Coordinator, Offshore Monitoring Limited (OSM). The consortium members workshopped the various work packages and discussed the path forward in an effort to establish the imminent next steps for project development. The primary goal of the Kick-off was to present an overview of the SafeNav Project Work Plan, to communicate the Timeline for progression and to collaborate on all work packages with the Project Partners.

On 31st December 2022, the Team submitted the first Deliverable and achieved the first Milestone of the Project, namely: ***User and technical requirements specifications*** and the ***Web Page Creation and Social Media Setup***, consecutively. As a result of the hard work and dedication of the coordination team, the key partners and other project collaborators ensured that this important Milestone was realized on time.

Upcoming General Assembly and other events

The 2nd General Assembly will take place from the 15th to 17th of March at the University of Rijeka, Faculty of Maritime Studies (UNIRI), in Croatia. The Partners will present the Project progress thus far as well as determine the next steps for development.

Events to attend in 2023

[Autonomous Ship Expo Conference](#) Amsterdam, The Netherlands.

About the SafeNav Project

The SafeNav (Safer Navigation) Maritime Safety Project promises a path towards safer and more secure navigation for the navigator on the bridge today and then moving towards remote-operated and autonomous shipping.

**Funded by
the European Union**
